

Eagle Stroke Golf: Play golf on world famous courses in 3D.

Play golf at some of the worlds greatest courses in real photographic beauty, or choose from multitudes of 3D courses.

With all these choices The Eagle Stroke Golf System is unmatched in versatility and playability.

The Eagle Stroke Golf System, like the Double Eagle Elite Plus 4, is a great money maker for golf leagues, tournaments as well as open play.

You can increase your revenue, by selling on-screen advertising for use on the large 9'x12' screen the system can generate revenue time and time again! The advertising software can be customized for viewing before the game begins as well as before each hole is played. And each ad is time adjustable.

The system also has predetermined time allotments to keep your facility active with new customers, but is adjustable for longer games as well.

Game Play;

The Eagle Stroke golf simulator incorporates the latest in golf software advancements featuring a significant number of golf courses. For up to 10 players, you can adjust wind speeds from mild to strong. Course conditions can be set from hard to soft landing surfaces.

Fog density is variable as well. You can select from 5 different pin locations and tee locations for each of the 10 players.

Play any of the following popular golf games;

- Stroke Play
- Match Play
- Bingo Bango Bongo
- Stableford
- Practice
- Sudden Death (stroke play)
- 18 holes, Front nine or Back nine

You can select distance for gimmies, choose the number of mulligans per round, and select maximum score on each hole. Other software features include the ability to allow conceded holes, progress to next hole once hole is won, sudden death playoff if players are tied and quit round once a winner is decided.

While playing a course, your group can see helpful information on-screen such as; The location of the ball on the rough, tee or fairway. View information such as; wind speed and direction, along with ball elevation in relation to the hole, needed for those difficult chip shots!

Along with the course information you can also view the following;

- Which player is up
- Which shot is to be taken
- The par for the hole
- Distance of the hole
- Distance to pin from ball
- The name of the hole

The Eagle Stroke offers other potentially critical course information to help you hit the perfect shot! You will view such information as:

- Location of all hazards
- Location of ball on overview
- Distance to any spot on hole

Once you have played your shot, the following ball flight statistics become immediately available;

- Distance of shot
- Distance of shot in the air
- Speed of ball
- Angle of shot
- Distance to pin
- Button for mulligan
- Button for replay
